

Testimonials

SCOTT P

The Technician was fantastic. We just purchased this house not long ago and it's the first time we had the heating system serviced. He explained a number of things that were very helpful, including how to switch to our heat pump and our natural gas furnace to save money.

JON F

We had a great experience with Total Comfort Solutions for our recent plumbing re-pipe project. The Comfort Consultant put together a great estimate with the Plumbers completing the project timely. Hey, Walla Walla, I know a good plumber in town!

Benefits of USA Membership

- ★ **Priority Scheduling**
We will prioritize your emergency. Just give us a call.
- ★ **Routine Maintenance**
Manufacturers and utility companies recommend regular maintenance to reduce costly breakdowns and lower your utility bills.
- ★ **Worry-Free Reminders**
We will proactively let you know via Email, Text, Phone, or Mail when it's time to schedule maintenance.
- ★ **Worry-Free Renewal**
No need to mark your calendar or fill out paperwork . Your MONTHLY membership will auto-renew.
- ★ **Bonus Savings**
Receive a 15% discount off Repairs and Services while your membership is active
- ★ **Protect Equipment Warranties**
We maintain detailed, accurate records of maintenance and repairs. Many manufacturers will void the warranty without this information.
- ★ **Transferable**
Plan stays with you in the event of a move within our service area, or can be gifted to the new home owner.

Did you know?

Maintenance can improve your system's efficiency by up to 30%, reducing energy costs and environmental impact. Keeping up with these simple tasks can save you money and contribute to a more sustainable home.

6 Reasons why regular Maintenance is a MUST

★ Prevent Major Issues

Regular inspections can catch small problems before they become expensive repairs.

★ Extend Lifespan

Routine maintenance can prevent premature wear and tear prolonging the life of your Plumbing, and HVAC systems.

★ Enhanced Safety

Yearly checks help identify potential safety hazards such as gas leaks, electrical issues, and water leaks that could lead to water damage or mold growth.

★ Warranty Protection

Many manufacturers require proof of regular maintenance to cover "warranty" issues.

★ Improved Efficiency

Ensures your system runs at peak performance, reducing energy consumption and lowering utility bills.

★ Optimal Comfort

A well-maintained system ensures consistent performance for your water, heating, and cooling throughout your home.

About Us

Total Comfort Solutions has been providing reliable HVAC and Plumbing services to the Walla Walla Valley since 2008. We specialize in Heating, Cooling, and Plumbing solutions with a commitment to customer satisfaction and quality workmanship. Our team of licensed and trained technicians offers a wide range of services, including emergency repairs, installations, and maintenance. We prioritize straightforward pricing, on-time service, and a worry-free process to ensure your comfort.

Our Services

☑ HEATING

Includes inspecting and cleaning your equipment, checking and replacing air filters, testing thermostat functionality, and ensuring all components are in good working order. This prevents breakdowns, improves efficiency, and extends the system's lifespan.

☑ COOLING

Includes cleaning coils, replacing air filters, and testing system controls. Regular servicing ensures efficient operation, reduces energy costs, and prevents unexpected repairs.

☑ PLUMBING

Includes inspecting pipes for leaks, ensuring proper drainage, checking water pressure, and cleaning fixtures. Regular maintenance prevents water damage, reduces repair costs, and ensures a reliable water supply.

☑ WATER HEATERS

Includes flushing the tank to remove buildup, inspecting the anode rod, and ensuring the heating element is functioning properly. This enhances efficiency, extends the lifespan, and ensures a consistent hot water supply.
